

2nd Announcement

17th Malaysian Conference on Psychological Medicine

The 6th Asian Society Against Dementia International Congress

“Diversity & Harmony in Care”

Date: 14th - 16th June 2012

Venue: Sheraton Imperial Kuala Lumpur Hotel

Organised by

Secretariat

Welcome Address

It gives us great pleasure to welcome you all to the **6th Asian Society Against Dementia** and **17th Malaysian Conference on Psychological Medicine (MCPM)**. For the first time we will be in a smart partnership with a group of dedicated and well known colleagues in the field of dementia from all over the world.

We will be joined here in Kuala Lumpur by fellow colleagues from Asia. Kuala Lumpur is an exciting, vibrant and peaceful city and we hope this congress will provide opportunities for delegates to interact, learn and share experiences with those working in different settings.

The theme of the congress "**Diversity and Harmony in Care**" reflects the current state of mental health care with divergent views but in harmony to achieve the best possible outcomes for our patients.

We hope all of you will take this opportunity to explore some of the wonderful experience of a truly Asian city and enjoy the hospitality during the course of this congress.

Looking forward to greeting you in Kuala Lumpur in June 2012!

Selamat datang.

Dr. Abdul Kadir Abu Bakar
President
Malaysian Psychiatric Association

The **6th Asian Society Against Dementia (ASAD)** International Congress Committee welcome researchers, clinicians and all health workers involved in caring for people with dementia to Kuala Lumpur. Since 2007, the members of ASAD have devoted time and effort spreading the recent trends and advances in dementia care to its member countries tirelessly. Asia, with its highest concentration of the world's elderly population will be the main focus of attention. It is time that Asia developed its services to be at par with the rest of the world. Asia should also aim to develop itself as being the centre of development and research in dementia care.

Dr. Suraya Yusoff
Scientific Committee Chairperson
The 6th Asian Society Against Dementia International Congress

Organising Committee
